

Trip to U.K.

The days I spent in England are unforgettable for me. I still remember walking to take the bus and the beautiful school they have. England had many different things we don't have in Greece. It is a multicultural place. For example they have a lot of restaurant with various tastes of food, Indian, Asian, Greek and a lot more. I made new friends there and I wish that our friendship will last for a long time. Our hotel was a small one but it was very good and the hoteliers were really hospitable. Something I still remember it's our excursion to London. We went to an interesting museum about migration and we learnt new things that we didn't know. The pictures all around the walls were amazing and I really liked them. Every afternoon we were going out for food with our teachers and the other groups and I really loved that moment of the day. I and my friend Alexandra, with whom we travelled together, were both impressed by the fact that all students wear uniforms and we said to our teachers that we would like to wear uniforms too. Something I liked was drama lessons because it was something new for me and really interesting. I tried a lot of new tastes and my favorite was the Indian cuisine. The last day we went to play bowling and we had a really good time with everyone. This travel was important for me because I learnt and I saw a lot of new things about the English culture and I came close with people from different countries. Also this was my first travel abroad and I'm happy that it was with the Erasmus project. It couldn't be better.

The trip to England was my first trip abroad, I was very excited and this one week is unforgettable for me. The first things that I will always remember is London and the school. The London was something really different for me because I've never been to such a big city before. It was really beautiful and I will remember the Big Ben and the London eye, both of them were really huge. Then we went on a boat trip and we saw the whole London. The school was also big and beautiful and I was impressed that all the students wore uniforms. They have more lessons than in our school like art, drama, music and more. The lesson that I loved was the drama lesson. Also when we went out for food or for walk in the afternoon with the other groups we had a really good time and we were laughing all the time. The place that we stayed was small but really beautiful. I loved this place and it was different from Greece, it was really clean and I liked the houses with the small gardens and the beautiful flowers, also we ate Indian food and I and my friend Irene we really liked it. When we went to the small trips we got to know each other better and we made good relationships. The last day was one of the best days for me and my friend, we went for bowling for first time and we have a really good time with the other kids we lost but our teacher Mr. Kavouras won the game. All the kids were really kind with us and we try to keep contact with them. This trip was really important for me, I learned and I saw new things, I tried new tests and I made new friends.
