

One year ago I joined the school program. I was informed about the program from a student of my school and I liked the idea of what was happening. So this year I decided to continue with the new program about bullying. On the first meeting we watched some videos that touched me and gave me motivation. Also, I hope that I will have the chance to visit another country so I can learn the cultures of other countries in Europe.

-Maria Englezou

I joined this program this year as I was informed about what they were doing last year, and I found it very interesting. So I came to actually see what they were going to do this year and after watching some videos about bullying I decided to start this project. I do not hide that I would really want to go on a trip to another country so I can find out about their customs and meet students from somewhere else.

-Loukia Sapouna

Last year I started a program about immigration. I had a great time there. I met new people and learned new things. This year I joined the program about bullying because I think it is a very important issue. It is important for me, because in our age (teenagers) we have a lot of problems with our classmates. So we should learn things to make us comfortable with ourselves and help others. Last week we watched a couple of videos about bullying in schools. The videos touched me so much. With the result that I want to continue the program. Finally I would like to meet new people and share my ideas about the issue.

-Maritina Akmoutsou

I joined this program because I really liked the one last year. I learned a lot about immigrants and refugees and the difference between them. I also liked the way we all collaborated together and that we had the chance to meet new children from other countries. I like the new program that talks about bullying. It is my last year in Junior High School so I want to be a part of this program. I would be very happy to travel to another country and meet new people. Finally I would like to be a part of this program to share my ideas and thoughts.

Last year I started the Erasmus program about immigration and I really enjoyed it, so I thought that it will be a great idea to continue and this year. So after the meeting that we had last week I took the decision that I like the new program theme about bullying. Also I liked the idea of meeting new students from other countries and work with them.

-Marina Irakleous

Last year I started the Erasmus program because my sister told me about it and I was inspired from her. This year we have started a new program about bullying. And I would also want to go on a trip so I can meet different people and work with them.

-Ben Chiotellis

Generally, I like joining school activities. Erasmus was an opportunity for me to join in a program. Moreover, my mother had told me how interesting Erasmus projects are. These reasons made me join this program. Last year we were involved with a program about immigrants. This year, we have just started a program about bullying. I believe that both of these programs are very interesting. Further, I want to go on a trip abroad .
